

Berry Creek Landscape

Berry Creek HOA is obtaining pricing for a landscape design and installation project at the Berry Creek Clubhouse located at 1515 S. Berry Creek. Please provide pricing and a description of the design for the following items. The items listed below provide the minimum requirements.

1. **Fall 2018** Plant two (minimum 3" caliper) trees at the Berry Creek Clubhouse at a specified location around the playset. Provide all materials including metal edging (brown), soil, and mulch (grade A) to complete installation. The trees should be properly staked to provide support. The trees will be planted in two separate areas. One planting area should be large enough for the installation of a park bench. Two park benches will be installed with concrete. Provide all materials to install the park benches.
2. **Spring 2019** Reroute sprinkler zone 6 to provide irrigation to areas not covered.
3. **Spring 2019** Remove current foundation hedges on south side of clubhouse (to be specified). Plant boxwoods or similar shrubs to match existing shrubs (west side of the clubhouse). Size of shrubs should be comparable to the existing shrubs. Provide all materials including soil and mulch to complete installation.
4. **Fall 2018** Plant two (minimum 3" caliper) trees at the center island main entrance. Provide all materials to complete installation.
5. **Spring 2019** Remove excess dirt from around Berry Creek sign at east entrance. Provide landscape design recommendations for foundation shrubs.
6. **Spring 2019** Plant three (minimum 3" caliper) trees at the Shiloh Creek island. Provide all materials to complete installation.

The HOA board will select a vendor for each item. Each item should be priced separately as different vendors may be chosen for each item. A detailed description of each item will assist the Board in selection. The Board reserves the right to select or deny any vendor.
