

<b>Project Description</b>			
<p>Plant two (minimum 3" caliper) trees at the Berry Creek Clubhouse at a specified location around the playset. Provide all materials including metal edging (brown), soil, and mulch (grade A) to complete installation. The trees should be properly staked to provide support. The trees will be planted in two separate areas. One planting area should be large enough for the installation of a park bench. Two park benches will be installed with concrete. Provide all materials to install the park benches.</p>			
<b>Timeframe</b>			
Fall 2018

John Lee	Steel edging, 2-Doublefile Viburnum, 4-Yuki Snowflake Deutzia, 16-Lirope, 4-flats of seasonal color, mulch	\$1324.66	

Project Description			
Plant three (minimum 3" caliper) trees at the Shiloh Creek island. Provide all materials to complete installation.			
Timeframe			
Spring 2019			
Company	Description	Estimate	Notes
Evergreen Lawn and Landscape	Plant 3 Northern Oak, Shumard Oak, or HOA choice of tree. 3" caliper trees (3 new trees), tree rings, soil amendments, stakes, mulch. I recommend 2 round wooden tree stakes for each tree since kids will be playing in this area. I feel they are a little safer than the metal T-post. Materials-\$974 Labor-\$750	\$1724	
Thrive Landscape and Irrigation	3 – 3 inch Chinese Pistache, 3 tree gator bags	\$2900	
John Lee	2-Royal Star Magnolia and 1-Weeping Willow "Babylon" Installation and mulch	\$3184.27
